Project Assistant · AI Project Assistant · AI Operations Analyst · AI Risk Analyst

PROFESSIONAL SUMMARY

Results driven professional with an MBA in Project Management and an MSc in Artificial Intelligence for Business (National College of Ireland), offering a high impact combination of AI literacy, operational governance expertise, and cross sector project coordination experience. Proficient in Agile and Waterfall methodologies, sprint planning, stakeholder reporting, and compliance monitoring across government, consulting, and technology environments. Demonstrates applied knowledge of AI/ML lifecycle management, model governance, responsible AI frameworks, AI bias identification, risk register maintenance, and regulatory compliance (GDPR and EU AI Act). Certified PMP, PRINCE2, and PSM I practitioner with a proven record of delivering measurable operational improvements and data-informed business outcomes at scale.

CORE COMPETENCIES

Project Coordination (Agile/Waterfall) | AI Lifecycle Management | Risk Assessment & Mitigation
Stakeholder Engagement & Reporting | Compliance Monitoring & Governance | Sprint Planning & Scrum
Model Governance & Responsible AI | Risk Register Management | AI Bias Identification & Ethics
Data Analysis & KPI Development | Process Improvement & Optimisation | Prompt Engineering
Requirements Gathering & Documentation | Incident Management | Regulatory Compliance (GDPR/EU AI Act)

PROFESSIONAL EXPERIENCE

Grangelough Limited - Dublin | Operations & Compliance Coordinator March 2026 – Present

- Manage daily compliance operations for a regulated accommodation facility supporting 30+ residents, ensuring full adherence to IPAS, housing, safety, and welfare regulatory standards.
- Coordinate multi-service delivery across housing, hygiene, and meal provision, streamlining operational workflows and improving service efficiency.
- Maintain structured documentation systems incident reports, occupancy logs, compliance records supporting continuous audit readiness and regulatory inspections.
- Liaise with management and external regulatory bodies to facilitate inspections and governance reviews, serving as primary compliance point of contact.
- Identify operational gaps through ongoing process analysis and implement targeted process improvements, reducing service delivery inconsistencies.

Nigeria Immigration Service | Clearance & Approving Officer March 2018 – December 2025

- Monitored and analysed migrant data using the Migration Information and Data Analysis System (MIDAS), generating actionable intelligence to support evidence-based border management decisions.
- Implemented virtual monitoring and biometric verification systems, directly contributing to a 38% reduction in irregular migration at the Seme border post.
- Led data collection and research analysis for a government digital transformation programme, supporting the deployment of e-border and automated immigration systems (2020).
- Maintained 100% data accuracy and a 0% error rate across all shifts at Nnamdi Azikiwe International Airport, operating in a high-volume, zero-tolerance compliance environment.
- Coordinated compliance assessments and risk evaluations against national immigration regulations, maintaining structured audit trails, risk registers, and incident documentation.

Nuhuaisien and Associates | Operations Manager January 2016 – December 2017

- Reduced complaint resolution turnaround time by 70% through end-to-end process redesign and implementation of structured escalation and tracking workflows.
- Coordinated cross functional seminars, stakeholder engagement meetings, and training workshops, managing project timelines and deliverables from initiation to closure.
- Prepared and delivered operational reports and stakeholder briefings to senior leadership, enabling data-informed decision-making and strategic planning.
- Supported risk identification, impact assessment, and mitigation planning across concurrent consulting projects, contributing to a structured risk management culture.

MTN Nigeria PLC | Team Lead – Customer Operations December 2014 – November 2016

- Led and motivated a team of 20+ to consistently achieve performance KPIs, service standards, and customer satisfaction targets within a fast paced, regulated environment.
- Designed and delivered training programmes to enhance team members' product knowledge, compliance awareness, and operational efficiency, improving measurable team performance.

- Analysed customer feedback and operational data to identify service gaps and present evidence-based process improvement recommendations to management.

Sedera Initiatives (Volunteer) | Project Coordinator

March 2022 – December 2025

- Coordinated community-based projects in sanitation and public health, managing stakeholder communication, deliverables, and progress reporting across multiple simultaneous initiatives.
- Conducted needs assessments and facilitated data driven project planning, aligning interventions with community priorities and resource constraints.
- Led awareness campaigns that measurably improved community engagement and health outcomes, demonstrating project leadership in resource-constrained settings.

EDUCATION

MSc Artificial Intelligence for Business

January 2026 – Present

National College of Ireland, Dublin

Master of Business Administration MBA (Project Management)

April 2022 – November 2024

Turkish Nile University

CERTIFICATIONS & TRAINING

PMP (Project Management Professional) | Project Management Institute (PMI)

PRINCE2 Foundation & Practitioner | AXELOS / PeopleCert

PSM I (Professional Scrum Master) | Scrum.org

In Progress: *CompTIA AI+ | ISO 31000 Risk Management Foundation | Google Project Management Certificate*

TOOLS & TECHNOLOGIES

Project & Collaboration: Jira, Confluence, MS Project, Monday.com, Agile/Scrum Frameworks

Data & Analytics: Tableau, Power BI, SQL (Intermediate), Microsoft Excel, KPI Design, MIDAS

AI & Machine Learning: RapidMiner AI Studio, ML Lifecycle Management, Model Evaluation (Precision/Recall), LLM Prompt Engineering, Generative AI / GPT Tools, claude.

Collaboration & Development: GitHub, Sublime Text, Microsoft 365 Suite, CRM Systems
